Bioluminescence in Broken Glass

ANCHOR Merleau-Ponty — perception is the body's grip on the world
CONSTRAINT Modulate everything via chaos
DIRECTION The sound of light bending around a black hole

Thirty to forty-five minutes. Commit to a choice. Stop adjusting. The oracle does not judge whether you are right — only whether you made something.

Started at _____ Committed at _____ Name or initials _____

The instrument — *what synth, what preset or init patch you started from*

The moves — *what you did to the signal, in the order you did it*

The recording — *the file name of the phrase you played*

Your reading — *what the anchor meant to you, not the textbook — and where it is in your patch*

The surprise — *where what you meant and what you heard came apart*

The miss — *anything you tried and threw away (the good failures teach)*

May this be kept and quoted? Tick one. Nothing is kept without a tick.

☐ yes, with my name
☐ yes, but anonymously
☐ keep it, but don't quote me
☐ don't keep this

Kept sheets are typed into the encounter journal, one record each, and saved in the Preset Oracle's encounters folder.

Parmenides Dying Alone in a Warehouse

ANCHOR Parmenides — being does not change; becoming is illusion
CONSTRAINT Use feedback routing only, no filter envelopes
DIRECTION Industrial machinery becoming sentient

Thirty to forty-five minutes. Commit to a choice. Stop adjusting. The oracle does not judge whether you are right — only whether you made something.
